Indoor living

2026-2027

The keyword comfort is deeply rooted in the Vincent Sheppard brand. It all started with creating timeless indoor pieces that would take the seating experiences of people to the next level.

Now, comfort means so much more than its practical definition. It is also about enjoying little pleasures in life: savouring a peaceful morning coffee, taking time to read a book that has been waiting on your shelf or enjoying the company of loved ones in the spaces that matter most.

To enrich your comfortable moments, this brochure showcases a carefully curated selection of contemporary furniture. From intricately woven cane chairs to upholstered lounge chairs and beautifully crafted tables, each piece is designed to elevate your everyday life.

Titus

With Titus, Vincent Sheppard reimagines the use of rattan in its furniture. With its woven rattan back, the chair is a contemporary reinvention of a well-loved mid-century design. Light and air can flow through the caned surface casting fine-patterned shade across the room.

At the counter

A countertop is one of the most dynamic spaces in a home. It serves a variety of purposes throughout the day. Positioned close to—or often integrated into—the kitchen, it becomes the perfect spot for a quick breakfast, engaging in conversation whilst someone is cooking, or simply unwinding with a drink. As a central hub, choosing the right counter stools is essential. They should combine comfort, functionality, and style to complement the space and enhance the moments shared around the countertop.

NORMA LOUNGE CHAIR

Norma's seat is meticulously handwoven by skilled artisans around a solid oak frame, a process that requires an entire day of dedicated craftsmanship.

Norma

The Norma lounge chair has a distinctive design which unites dark stained oak wood and tactile rope. With its sturdy oak legs and round-shaped frame, it supports a generous seat made of tightly-strung rope.
